

GEA Accredited Lift Engineers

The GEA Vehicle Lift Engineer Assessment measures the LOLER, PUWER and BSI knowledge of engineers who service and install vehicle lifts. We therefore believe that knowledge of these Regulations together with good product and skills training creates a competent Engineer.

The Assessment takes place at the GEA, in a classroom environment and is computer based. This fairly tough Assessment consists of 60 multiple choice questions; the correct answers for which can be found by studying the following documents, which are obtainable from the web links below.

Charges for the Assessment are £95 + VAT per engineer (GEA members only). A photocard ID/site pass will be sent to all successful engineers. For those engineers who do not pass the Assessment at the first sitting, constructive feedback will be provided.

Please Note: It's essential that your engineer studies these documents before attending:

Standards:

BS 7980:2003 and BS EN 1493:1999. Both available from the BSI website:

<http://www.bsi-global.com/upload/Standards%20&%20Publications/shop.html?epslanguage=EN>

Regulations:

THE LIFTING OPERATIONS AND LIFTING EQUIPMENT REGULATIONS 1998 (LOLER)

This site provides an overview of LOLER: <http://www.hse.gov.uk/lau/lacs/90-4.htm#para81>

You can buy a guide to LOLER by visiting:

<http://www.hsebooks.com/Books/product/product.asp?catalog%5Fname=HSEBooks&category%5Fname=&product%5Fid=3312>

PROVISION AND USE OF WORK EQUIPMENT REGULATIONS 1998 (PUWER)

<http://www.hse.gov.uk/pubns/indg291.pdf>

The Assessment will also seek knowledge on general Health and Safety information and guidance can be obtained from:

<http://www.hse.gov.uk/mvr/index.htm>

For further information, or to book a place please phone 01327 312616, or email helen@gea.co.uk
