
“Mercedes-Benz UK appoints Gemco/Everquip partnership to build ATF Lanes, fitted with BM Autoteknik Test Equipment .

BM Autoteknik A/S manufactures, Roller Brake Testers, Wheel Play Detectors and Load Simulators.

Exclusively, BM Autoteknik currently supplies VOSA Goods Vehicle Testing Lanes throughout Great Britain with new vehicle test equipment.

It has been the key focus for VOSA to update and expand the privately owned DP test sites, to a larger network of ATF (Authorised Testing Facilities) throughout Great Britain.

Today the 5th May 2010 Gemco Equipment Ltd (The UK Distributor of BM Autoteknik A/S) signed a purchasing agreement with Mercedes-Benz UK to supply BM Test Equipment to VOSA ATF lanes throughout the Mercedes-Benz Nationwide dealership network.

Chris Manby of BM Autoteknik A/S explains, *“As a team, we proposed to Mercedes Benz UK an “all inclusive” flexible solution of quality services and vehicle test equipment. Our future proof ATF solution includes adaption to the specific requirements of each individual Mercedes Benz site. We therefore allow ourselves feeling proud by being awarded this prestige’s contract with Mercedes-Benz UK”.*

The Team:

- Gemco Equipment Ltd - Northampton.
- BM Autoteknik A/S – Denmark.
- Everquip Pits Ltd – Hull.

Mercedes-Benz UK was presented with a proposal for a total ATF package including – Quality products – Quality Project Management – Quality Aftercare Support package.

Michael K. Larsen, Sales Director/Partner of BM Autoteknik A/S comments *“Today we have completed the refreshment of almost half of VOSA’s testing stations with BM Test equipment, and we therefore know that BM vehicle testing equipment meets VOSA’s requirements to the last detail. We are proud that this high quality level of BM Test equipment is recognised by Mercedes Benz UK.*

Mercedes Benz UK has taken an important step toward ensuring that their future ATF lanes will be consistent with the refreshed VOSA inspection lanes; and that any future developments of VOSA test procedures will be instantly available in Mercedes ATF test lanes”.
