

**SCALE OF CHARGES FOR APPROVAL OF EQUIPMENT FOR MOT TESTING**

The charges for initial approval and any subsequent updates, or amendments, are based on:

- a) The equipment being available for full inspection within an area bordered by Bristol, London, Leeds and Manchester.
- b) All paperwork being correct and all information being available before the inspection takes place.
- c) The equipment being approved at the first visit and the Inspecting Engineer is not involved with any subsequent checking or visits.

In the case of category d) Equipment, the charge is based on the equipment being sent to the Inspecting Engineer for approval. Additional visits or time spent advising on, or checking modifications, to the equipment, or documentation, to be charged extra. Travelling time and other costs for visits outside the designated area will be charged extra.
