

The equipment listed in this section **'CONNECTED'** means it meets the DVSA requirements for connection to the DVSA MTS system.  
From the 1st October 2019 it will be mandatory for new site applications and when replacing existing brake testers to use equipment from this list.

The equipment listed in this section **'CURRENT'** means that it meets DVSA specification (Excluding connected status) and is supported by the equipment manufacturer,  
From the 1st October 2019 the equipment in this section will no longer be acceptable for new site applications or replacement of existing brake testers *(with the exception of class I & II approved equipment & adaptor plates)*

The equipment listed in this section **'RESTRICTED'** means that it may no longer meet the DVSA specification and / or may no longer be supported by the equipment manufacturer.  
**Note:** Providing that this equipment is in good working order, is calibrated and meets the latest software requirements, it can continue to be used in existing MOT stations.
