

The equipment listed in this section 'CURRENT' means that it meets DVSA specification and is supported by the equipment manufacturer. New site applications and replacing existing equipment can be selected from this list ONLY.									
The equipment listed in this section 'RESTRICTED' means that it may no longer meet the DVSA specification and / or may no longer be supported by the equipment manufacturer. Note: Providing that this equipment is in good working order, is calibrated and meets the latest software requirements, it can continue to be used in existing MOT stations.

The equipment listed in this section 'CURRENT' means that it meets DVSA specification and is supported by the equipment manufacturer. New site applications and replacing existing equipment can be selected from this list ONLY.

The equipment listed in this section 'RESTRICTED' means that it may no longer meet the DVSA specification and / or may no longer be supported by the equipment manufacturer. Note: Providing that this equipment is in good working order, is calibrated and meets the latest software requirements, it can continue to be used in existing MOT stations.

Table with columns: Equipment Type, HBT, Connects to MTS, Make / Brand, EIN, Model, Classes approved (Slight included in Class 7), Additional Description, Software version approved (and above), 3rd party Calibration allowed, Calibration period (Months). Rows include various equipment types like Velyen, Vitec, WT Engineering, Actia Muller, Balco, Capelec, Crypton, Dunlop, GEMCO, HH Intertech, Itech, LET, Lujjan, Nussbaum, Oma Spa, RS Workshop, Snap-on, Tecalemit, Tecnotest, TEN, Trade, Werther, and Werther International.
